

**Kansas State University
Veterinary Research Scholars Program 2012**

Outline for suggestions to include in the Student Application Proposal

1. Brief Statement of Anticipated Benefit of Performing this Investigation:

What is the background regarding the importance of this research?

2. Brief Statement of Proposed Activities:

What is the research hypothesis or purpose of the study?

3. Describe how the laboratory you wish to work with is specifically suited to perform this research:

Briefly describe previous work that has led to this investigation (in the laboratory that you wish to work in or data that is in the published veterinary literature):

4. Briefly describe the importance of your involvement in the KSU-VRSP in 2012?

How will your involvement in the 2012 VRS program benefit your professional development and the success of the proposed research project? Do you anticipate a career that will involve research? Please explain your career goals.
