Animal Health is a veterinary partnership supporting 250+ locally led hospitals nationwide, empowering veterinary teams to deliver exceptional patient care while preserving each practice's unique culture, identity, and medical autonomy. Through externships, mentorship, hands-on learning experiences, and career development programs, we connect veterinary students and new graduates with opportunities across General Practice, Emergency, Urgent Care, Specialty, Mixed Animal, and Feline-Only hospitals. We are committed to investing in the next generation of veterinary professionals by fostering meaningful relationships, supporting professional growth, and helping build rewarding, lifelong careers in veterinary medicine.

Graduate with their DVM to start in May of 2027
Student Extern (4th Year)

We are seeking 4th-year veterinary students for a clinical externship program designed to provide hands-on experience in a professional hospital setting. This student-directed opportunity allows you to focus on your specific areas of interest, such as surgery, dentistry, emergency medicine, or complex case management, alongside experienced mentors. The program includes a stipend and is focused on building clinical confidence and practical skills as you transition into your professional career.

We also are looking for a 2027 new graduate to join our team. Our hospital has an extensive history of supporting new graduates in their first years of practice as they transition from their student years to being a fully-fledged DVM. We have a dedicated mentorship program for new graduates as well as an excellent DVM team who is great at answering questions.

Graduate with their DVM to start in May of 2027
Post-DVM Intern (Currently in their 4th Year)
Student Extern (4th Year)

We are excited to host students for a two week externship at BLVD Veterinary in Chicago, IL! We are proud to be independently and veterinarian owned, and to have a team of DVMs and medical directors that are passionate about sharing this incredible profession with future veterinarians byway of mentorship! We are also looking for one new-grad to add to our team in 2027! See below for more details on externships, and please reach out to careers@blvd.vet if you'd like to learn more about externship or career opportunities!

BLVD Vet is seeking to support the next generation of veterinarians at our truly independent group of AAHA Accredited and Fear Free certified small animal practices in Chicago! Our externship rotations are typically two weeks in length, and are designed to allow students, under supervision, to practice the problem-solving, technical and communication skills that they have acquired during their coursework and clinical education. Externs are given the opportunity to work alongside our veterinary team and are encouraged to participate in the many wonderful and challenging aspects of patient care.

Externs can expect to witness a typical caseload of a small animal practice; there will be a well balanced split of wellness and sick visits as well as days on procedures (primarily dental and soft tissue.) Under the supervision of a senior BLVD veterinarian they will gather histories, practice accurate recording in medical notes, perform physical examinations, develop diagnostic and treatment plans, scrub into surgery, develop their professional voice for clients, refine technical skills, and establish rapport with the support staff.

Stipends are offered to 1st-4th year externs (\$300/week; max \$600) and lodging/travel reimbursement of up to \$1000 is offered to 4th year students.

We are a family-owned group of hospitals in the Austin, Texas area with a PASSION for mentorship. Our three hospitals are located in Liberty Hill, Leander, and Manor, Tx. Our doctors excel in wellness care and are enthusiastic about training new associates in advanced care in the areas of urgent care, surgery, dentistry, and internal medicine. Due to our rapid growth, we are adding to our staff at several locations and seeking a veterinarian who is eager to learn and wants to live and work in the greater Austin area. Our mission is to assist veterinarians in becoming successful in their careers.

Opportunities are available to all of our motivated associates to own and operate hospitals as we continue to build state-of-the-art facilities!

We're looking for veterinarians who are compassionate, curious, collaborative, and eager to grow.

We value people who communicate well, care deeply about their teams, and build meaningful relationships with clients and their pets.

Through externships, mentorship, and hands-on experiences, we look for students who are excited to explore their interests and grow their confidence.

Most importantly, we're looking for great people who want to become great veterinarians—and build a career they're excited about.

Check out our EXTERNSHIP program today!

At Madison Pet Clinic, our motto isn't just a slogan—it's how we operate every day: 'Your pets... our passion.' As a thriving small animal practice with five veterinarians and a wonderful, highly skilled team, we strive to deliver quality medicine and exceptional customer service. We are deeply invested in the future of veterinary medicine, which is why we offer a robust, hands-on externship program to help students confidently transition into their careers and become outstanding role models in patient care. Here are some highlights of our extern program:

- Diverse case load with canine and feline patients
- Hands-on experience with managing cases, surgeries, dentistry and surgical laser (wet lab experience)
- 1st to 4th year veterinary students are welcome – credit or non-credit
- 1- or 2-week blocks to choose from
- \$110/night housing reimbursement
- Up to \$400 travel reimbursement

A journey awaits you at Patton Veterinary Hospital (PVH)—with our clients, patients, and within our team. For over 100 years, PVH has proudly served the community, continually growing and evolving. You'll receive personalized, one-on-one mentorship in a supportive, collaborative environment. Through that mentorship, our low-stress approach, and advanced diagnostics, you'll be equipped to guide your patients' journeys as well.

As an independently owned, six-doctor practice, PVH is built on the pillars of family, community, and environment—upheld by our core values. We're expanding our services while providing both preventive and urgent care. Our facility includes digital radiology, ultrasound, an in-house lab (CBC/Chemistry analyzers, I-Stat, microscopes), digital dental radiography, high-speed dental equipment, and cold and surgical lasers.

R Veterinary: Where Passion Meets Practice

R Veterinary is a family-owned, independent veterinary group serving communities across Missouri.

Founded in 2016 by Dr. Katie Rericha, DVM, and James Rericha, R Veterinary has grown from a single practice into a team of nine clinics while staying true to what matters most: excellent medicine, meaningful relationships, and care without pressure.

We believe veterinary medicine is better when doctors have a voice, teams are supported, and people have room to grow. That means investing in our people through mentorship, paid continuing education, leadership opportunities, and a genuine path for professional growth—from new graduate to medical director.

Our clinics serve a wide range of communities and patients, from companion animals and rural families, to military families and farm visits. While every location has its own personality and legacy, we are united by the same values: **Hometown Heart, Care Without Pressure, Compassion Always, Growing Together, Medicine That Matters, and Community Commitment.**

Whether you are a veterinary student looking for a meaningful first step, an experienced veterinarian ready for your next chapter, or a veterinary professional who wants to be part of a team that invests in its people, there is a place for you at R Veterinary.

We're building a different kind of veterinary group—one where you can do great medicine, grow your career, and still feel at home.

Sunflower Veterinary Care Clinic

Graduate with their DVM to start in May of 2027

Sunflower Veterinary Care Clinic is growing! With our move into a newly renovated, larger Wichita facility, we're looking for another associate veterinarian to grow with us. Our doctors aren't paid on production—clinical decisions are driven by what is right for the patient, not a production target. Our DVM team graduated in 2009, 2017, and 2024, offering both experienced mentorship and someone who remembers exactly what it's like to be a new grad. We've helped our newest veterinarian grow from a 2024 graduate into a confident clinician while maintaining a life outside of work. Here is your opportunity to put down roots, grow your skills, and build a career you can enjoy for years to come.

Sweetbriar Veterinary Clinic

Graduate with their DVM to start in May of 2027

Join our privately owned, family-oriented small animal practice where exceptional patient care, teamwork, and work-life balance come first. We are seeking a compassionate Associate Veterinarian who values building lasting client relationships and practicing high-quality medicine in a supportive environment.

You'll receive personalized mentorship opportunities to develop your clinical interests, and the autonomy to practice confidently. We believe in investing in our team and offer a clear pathway for professional growth, including future practice ownership opportunities for the right candidate.

If you're looking for a collaborative team, a positive workplace culture, and the chance to build a long-term career in a practice that feels like family, we'd love to meet you.

Established in southeastern Wichita in 1987, our thriving, independently owned veterinary hospital represents a proud, multi-generational, female-owned legacy of service. For over 35 years, we have served our community's dogs, cats, and horses with dedicated, high-quality medical care in a warm, collaborative environment. Driven by an experienced clinical team with exceptional staff longevity, we offer an encouraging, consistent, and family-like culture that our clients have come to deeply rely on and appreciate. While we maintain a strong preventative wellness core, we also feature advanced clinical capabilities in surgery, internal medicine, and diagnostics—utilizing modern equipment like digital radiography, ultrasound, and an in-house IDEXX laboratory.

Exciting changes are on the horizon as we prepare to transition into our brand-new, 7200-square-foot facility and officially rebrand as Whisker & Kin. This new identity is built on our core belief that pets are more than animals—they are family. Guided by our new tagline, "Leading Veterinary Care, With Heart," this transition blends advanced, innovative medical excellence with a warm, compassionate, and highly approachable experience where every client feels heard and every pet feels deeply cared for.

To support this exciting growth, we are looking for a dedicated Associate Veterinarian who is eager to take on a role in a clinic like ours—someone who deeply values connection, medicine, and relationships. We are seeking a team member who is confident in building a strong rapport with clients, committed to practicing high-quality, evidence-based medicine, and passionate about nurturing genuine connections with both patients and their owners.

Rice Veterinary Services, LLC is located in central Nebraska in the heart of cattle country. Broken Bow, NE is progressive rural community with a population of approximately 3,500. We are a growing two doctor practice, looking to add an associate with buy in potential available. We are a 100% bovine practice with an occasional equine and small ruminant client. The practice is roughly 60% cow/calf and 40% feedlot, no dairy. We are a full ambulatory practice, however haul in facilities available and is equipped with a surgery room. We serve clients in a 70 mile radius, including ranches in the Sandhills as well as feedlots among the crop land. Feedlot contracts include yards from 400 head to 80,000+ head. We are a typical bovine general practice; cow calf work includes pregnancy diagnosis, breeding soundness evaluation, lameness exams, artificial insemination programs, obstetric work, calf processing, disease investigation, etc. Feedlot work includes quality assurance and staff trainings, post-mortem evaluations, health and nutrition protocol development, data analysis and benchmarking, and strategic collaboration with management teams. Relatively low number of afterhours calls, averaging about 3-4 depending on the time of the year. Applicant must be hardworking, reliable, and trustworthy; we work with many wonderful producers and families that allow us to be successful for their herds and operations.

Steele Veterinary Clinic is looking to hire an associate to join our growing mixed animal practice. We are a progressive practice with an emphasis on customer service and patient care. Associate veterinarian will be expected to participate in all aspects of the mixed animal practice. While the majority of our business is based on production animal medicine (cow/calf, feedlot and back-grounding), we enjoy a growing companion animal segment of our practice. We also service two livestock auction markets. On call schedule and time at the auctions are shared equally by all six full time veterinarians.

Graduate with their DVM to start in May of 2027

Student Extern (1st, 2nd or 3rd Year)

Student Extern (4th Year)

Summer Student (1st, 2nd or 3rd Year)

Atchison Animal Clinic is seeking one full-time, associate veterinarian to add to our team. We are also inviting 1st-4th year externs to our clinic.

At Atchison Animal Clinic, our culture prioritizes practicing high-quality progressive medicine while maintaining a sustainable work-life balance designed to keep our staff fresh, energized, and excited about the work they do and with whom they work.

Our ideal candidate is a self-motivated team player with excellent communication skills. We are seeking mixed animal veterinarians to join our growing practice.

With 5 full time doctors, our case load consists of approximately 75% small animal, 20% bovine (mostly cow/calf) and 5% equine. We are the longest running veterinary clinic in northeast Kansas— and are proud to offer our new facility that opened in September 2019.

In continuity with our mission of practicing progressive high quality medicine—we are equipped with DR digital x-ray, ultrasonography , IDEXX in-house lab equipment, a dedicated small animal surgery suite with anesthetic monitoring, and high quality dental equipment including a high speed drill and digital dental x-ray.

Our large animal haul-in facility features a Silencer tilting/squeeze chute, and Reprosan ultrasound in a climate-controlled building.

Located in northeast Kansas, Atchison has a population of approximately 10,000. Positioned along the Missouri river, there are ample outdoor activities including trails and parks for walking/hiking, biking, fishing, and kayaking. There is an excellent school system, offering both public and private school. Atchison is also home to Benedictine College. Geographically, we are positioned very well with short drive times to Kansas City, St. Joseph, and Topeka. Please refer to the Visit Atchison and City of Atchison websites for a complete list of community amenities and activities.

<http://visitatchison.com/> <http://www.cityofatchison.com/>

In addition to providing our employees with a friendly work environment that is conducive to a sustainable work/personal life balance, we proudly offer a competitive compensation package, including:

Competitive Salary

Health Insurance

Disability Insurance
401K with 4% employer match
Paid KVMA and KVMA dues and dues to one additional professional organization
Paid DEA license
Paid Kansas and Missouri License
Paid professional liability insurance
Paid time vacation
Paid Emergency Fees Bonus
Continuing Education stipend
Vetgirl Subscription
Annual Bonus based on personal performance

To learn more about our mission, team, and facility find us on facebook, TikTok, or check out our website: www.atchisonanimalclinic.com

For more information about the position, please email Dr. Chris Hansen at chrishansendvm@gmail.com or Dr. Carrie Cowan at: carriecowan60@gmail.com

Veterinary Student Extern (1st–4th Year DVM Students)

We welcome veterinary students from any year of school who are interested in gaining hands-on experience in a busy mixed-animal practice located south of Wichita--about a 3 hour drive from KSU. Externs spend time alongside our veterinarians, seeing a variety of cases involving dogs, cats, cattle, horses, goats, and other species. Depending on your experience level, you'll have opportunities to observe and participate in appointments, surgeries, diagnostics, herd work, and everyday practice life.

Externships are typically 1–2 weeks long. While these positions are unpaid, we do provide comfortable housing at no cost during your stay. Our goal is to give students a realistic look at mixed-animal practice while providing a supportive and welcoming learning experience.

Countryside Veterinary Clinic is a well established, privately owned, mixed animal practice. We are seeking a compassionate, skilled individual to join our growing team. We focus on internal medicine, preventive care and soft tissue surgery. Ability to do mixed animal medicine is available. We are seeking a small animal veterinarian OR a mixed animal veterinarian.

Job Duties/Requirements:

- Must be proficient in ovariohysterectomies, neuters, mass removals and laceration repairs
- Manage and share cases in multi-doctor situation
- Work well with team and communicate clearly with clients and team members
- Triage small animal emergencies
- Manage cow/calf and small ruminant emergencies and preventive care

JOB BENEFITS

- 4 day work week 8am-5pm Monday through Friday
- Every other Saturday 8am-2pm
- Shared call between 4 veterinarians
- 14 vacation days
- 5 days of sick leave
- QSHERRA health care reimbursement
- Simple IRA with company match
- Paid AVMA, KVMA and 2 additional professional organizations
- Up to \$2000 CE credit/year
- Malpractice insurance
- Employee discount
- Salary based on experience

Benefits

- Simple IRA matching
- QSHERRA health care reimbursement
- Flexible schedule
- Shared on call with multiple doctors
- Paid time off

Schedule

- Monday-Friday 8am to 5pm with 1 full day off
- Every other Saturday 8am-2pm
- Every 1/4 weekend on call and 1 weekday on call

Experience: preferred; DVM required

Located in rural Kansas. Our town offers local charm with small town ambience. A wonderful place to raise kids and enjoy a slower pace. Close enough to Kansas City and Lawrence to enjoy shopping and entertainment. Far enough away to enjoy beautiful sunsets, hunting and warm hearted neighbors.

ESAC is a true mixed animal practice. A veterinarian here works on a diverse mixture of bovine, equine, small ruminant, and small animal casework. We are in a cow/calf area and do a lot of herd work such as pregnancy diagnosis, fertility testing, vaccination, and health/herd management. Bovine work is year round. Equine is a growing facet and is comprised of routine health visits, colic work ups, laceration repair, pregnancy management, lameness evaluation and management, and chiropractics. Our small animal side is growing as higher level demand continues to increase in a rural setting. We take on intense medical cases and have recently expanded our surgical capabilities, including more advanced soft tissue and orthopedic procedures.

Summer Student (1st, 2nd or 3rd Year)

Mix Animal / Exotics Veterinarian – Full Time

Hometown Veterinary Care in New London, IA is looking to add to our veterinary family. Our practice consists of roughly 25% equine, 3% small ruminants / exotics, with the remainder being small animals. Our workload also consists of equine, ruminant, and small animal reproduction and avian medicine. With the most prolific lab in Southeast Iowa, AI driven diagnostics, and the coming addition of CT capabilities, HVC is on the cutting edge of veterinary medical tech.

HVC is in the process of building a new clinic. With the completion of our new clinic, we'll be purchasing a CT machine making Hometown Veterinary Care one of only 3 clinics in Iowa with this capability. When you add that to our mobile digital X-Ray and the fact that we already boast the most prolific lab in the area, and it all adds up to the most technologically advanced clinic in Southeast Iowa.

Qualified Veterinary applicants will be 3rd or 4th year DVM candidates, but we are willing to interview 2nd year candidates as well. We will train newly graduated Veterinarians and offer a close nit working environment fostering an environment of cooperation, mentorship, and an openness to work as a doctoral team rather than individuals. We prefer candidates to have a background in or have been on a mixed animal track and interested in exotic medicine but will interview all applicants. All candidates must be willing to work in a fast-paced environment where patients' needs come 1st.

Interested candidates can contact our practice manager at jmkata@hometownvetcare.com or call 319-367-5511.

Join Our Team at Hoxie Veterinary Service, P.A.!

Hoxie Veterinary Service, P.A. is seeking a positive, self-motivated, and enthusiastic veterinarian to join our growing team. We're a progressive, mixed-animal practice with a strong emphasis on large animal medicine—primarily beef cattle—while also expanding our small animal, equine, and small ruminant services. We highly value mentorship and education, offering externships for students and new graduates. If you're eager to learn and grow in a supportive, hands-on environment, we'd love to hear from you.

What We Offer:

- Competitive salary
- Continuing education stipend
- Paid license and association dues
- Paid Vacation
- Vision, Accident & Dental Insurance
- Retirement plan
- Company vehicle and equipment provided
- Uniform allowance

Practice Highlights:

- General medicine and surgery for a variety of species
- Reproductive services including pregnancy checking (palpation and ultrasound), obstetrics, and breeding soundness exams
- Herd health and feedlot consultation
- Routine herd processing and veterinary support for two nearby livestock markets
- Chiropractic care for equine and small animal patients
- Modern equipment including digital radiography, gas anesthesia, in-house bloodwork, and ultrasound
- Two hydraulic cattle chutes (including a tilt-over for lameness/footwork and a portable chute for fieldwork)

About Our Facility & Community:

Our clinic, built in 2015, is located just one mile north of Hoxie, Kansas—a small, agriculture-based community known for its welcoming atmosphere and strong local economy. We're proud of our excellent schools, arts and theater programs, youth sports, and recreation opportunities. Outdoor enthusiasts will enjoy the abundant hunting, fishing, and nearby activities.

Nodaway Veterinary Clinic, Inc., a progressive, multi doctor, mixed animal practice has an immediate opening for an Associate Veterinarian. The practice is approximately 50% food animal and 50% companion animal/equine. We are looking to add an associate veterinarian to our team of doctors who has an interest in practicing mixed animal medicine and/or an associate who wants to practice with an emphasis in companion animal medicine.

Student Extern (1st, 2nd or 3rd Year)

Student Extern (4th Year)

Summer Student (1st, 2nd or 3rd Year)

We are a mixed animal practice located in the small-moderate size town of Ottawa, Kansas. The practice is a well established clinic with a large variety of case work in both large and small animal medicine and surgery. We are most currently interested in individuals looking to practice heavily in small animal medicine and surgery, but would entertain mixed animal practitioners as well.

Join the Team at Tallgrass Veterinary Hospital

Tallgrass Veterinary Hospital is seeking a full-time Mixed Animal Veterinarian to join our progressive, well-equipped practice. We're looking for a compassionate, motivated veterinarian who enjoys working with companion animals, horses, and livestock while delivering high-quality medicine.

Why Tallgrass?

Practice progressive veterinary medicine with advanced technology, including:

- Digital radiography
- Diagnostic ultrasound
- Dental radiography
- Endoscopy
- Hydraulic tilt chute for cattle
- Portable hydraulic chute
- Modern surgical and in-house diagnostic equipment

About the Practice

Our diverse mixed animal caseload includes:

- Companion animal preventative care, medicine, surgery, and dentistry
- Equine preventive care, lameness, reproduction, surgery, medical cases, and emergency services
- Beef cattle herd health, reproduction, diagnostics, surgery, and emergency services

As a mid-level referral practice, you'll also manage advanced medical and surgical cases alongside an experienced, collaborative team.

What You'll Do

- Provide medical, surgical, and preventive care across multiple species
- Perform diagnostics, dentistry, surgery, herd health consultations, and emergency services
- Build strong client relationships through education and compassionate care
- Collaborate with a supportive veterinary team

Qualifications

- DVM (or equivalent) and eligible for veterinary licensure
- Interest in mixed animal practice

- Strong communication and teamwork skills
- Commitment to progressive, compassionate medicine

Why You'll Love It Here

- Progressive, fully equipped hospital
- Diverse and rewarding caseload
- Advanced referral and surgical opportunities
- Supportive team environment
- Continuing education encouraged
- Strong ties to the local agricultural community

If you're looking to grow your skills while caring for companion animals, horses, and livestock in a progressive mixed animal practice, we'd love to hear from you.

Student Extern (1st, 2nd, or 3rd Year)

Student Extern (4th Year)

Summer Student (1st, 2nd or 3rd Year)

Twin Forks Clinic, a true mixed-animal practice, is seeking a full-time associate veterinarian to join our 5 DVM team that is committed to self-improvement and team collaboration. Established doctors are experienced and thoroughly enjoy mentoring and developing new graduates and young veterinarians.

We strive to promote patient and client quality of life by providing irreplaceable value in animal production, health services, and life long pet care.

We utilize 3 modern practice locations to serve foundational rural communities. Our clinic locations are Benkelman, NE; Wray, CO; and Burlington, CO. The breadth of our services matches the needs of our diverse clientele. Our cow-calf case load is bolstered by feedlot services, seed stock producers, dedicated small animal owners, and a growing performance horse group.

All three locations are well- equipped with small animal surgical suites, full in-house blood-work capabilities, digital radiography, ultrasound, electronic medical records, power floats, tonometry, and outstanding large animal haul in facilities with a equine stocks, Shanks hydraulic rollover chute, and Daniel's alley at each location. Also available for work in the country is a portable Silencer chute.

Twin Forks Clinic not only prides itself in practicing progressive veterinary medicine, but we also employ a progressive management style to maintain equilibrium in job satisfaction and personal development both in and out of the clinics. We encourage work-life balance through ample paid time off, 4 or 5 day work weeks, scheduled days off, paid maternity/paternity leave, and paid time off for CE. On call duty is split equally between full time veterinarians. Compensation is salary based and consistent with years of experience. Other benefits include retirement matching; paid state and DEA licensure, paid professional membership dues, money towards student loan payments, wellbeing stipended, paid cell phone, provided vet truck/box, and more.

We also have a robust veterinary student preceptor program with housing provided.

If you would like to learn more about our practice, or have questions regarding preceptorships and/or employment reach out to Justin Gdanitz DVM or jgdanitz@hotmail.com.

Come join the Kansas Humane Society pack! We're looking for compassionate, skilled veterinarians to help transform the lives of thousands of pets in need.

The Kansas Humane Society is seeking Full-Time or Part-Time Veterinarians who are passionate about animal care, committed to high-quality veterinary medicine, and dedicated to the mission of creating a more humane community.

POSITION PURPOSE

Perform quality surgeries, physical examinations, and diagnose and treat shelter animals. Collaborate with veterinary and clinic teams to develop methods to improve the well-being of shelter pets and ensure the best possible outcomes for every animal in our care and the community. Assist the Clinic Veterinarians in oversight and support of the clinic team with orienting and training clinic staff and volunteers.

ESSENTIAL FUNCTIONS

Animal Care: Promote the humane care and treatment of animals. Perform quality exams. Diagnose and treat shelter animals. Provide prognosis for conditions and develop treatment plans. Must be passionate about the mission of the Kansas Humane Society and understand shelter medicine, population health, and shelter flow.

Adhere to the highest ethical standards of veterinary care and adhere to state and federal laws governing the practice of veterinary medicine. Perform efficient quality surgeries. Care for feral cats. Accurately complete forms and records so that communication within and between departments is clear. Encourage continuous improvement throughout the shelter to increase the quality of medical and surgical care provided to both KHS and owned pets.

Looking for the next owner of Whole Health Pet Center, a boutique-style holistic/preventive health care clinic south of Kansas City, MO near both Raymore and Lee's Summit. Planned retirement in approximately 2034 but able to begin transitioning/onboarding next owner whenever they are ready.

Looking for a holistic-minded individual eager to own with minimal financial burden, but willing to accept lower pay than corporate places offer. My priority isn't making money off the practice in a sale, but to keep serving my clients as I transition to retirement. Open to many unique iterations to get there and eager to talk about ideas with prospective employees. Willing to remodel to add surgery if new employee likes it, but currently not offered.

AcuteVet is a brand-new, locally owned, small animal urgent care center located in Overland Park, Kansas. Our mission is to practice high quality veterinary medicine and provide unmatched customer service with a compassionate and personal touch. By focusing on urgent, non-critical medical and surgical cases, we will be able to provide pet owners with a convenient option for getting their pet the care they need, when they need it. By collaborating with local general practitioners, as well as emergency/specialty clinics, we strive to support veterinarians and owners with urgent care services in a region devoid of a dedicated urgent care facility.

As a sister clinic to Atchison Animal Clinic, AcuteVet is proud to be privately owned; being so allows our team leaders to place a high priority on the wellbeing of our teammates. By providing a positive clinic culture and work/home life balance, competitive compensation and benefits package, and flexible scheduling, our team members can enjoy where they work, as well as the people they work with.

In continuity with our mission of practicing progressive high-quality medicine—Our state-of-the-art facility is equipped with IDEXX DR digital x-ray, ultrasonography, IDEXX in-house lab equipment, and two dedicated surgery suites with anesthetic monitoring. We also currently house Phoenix Veterinary Surgical Specialists, a privately owned boarded surgical group, while they build their own clinic. This partnership allows for in-house consultation between both groups, further elevating the standard of evaluation and care for both teams. Our cooperative care also extends to include multiple mobile ultrasonography groups with boarded Internal Medicine specialists and Cardiology.

We currently employ 6 full-time Veterinarians, with a shared 75 years in solely Emergency and Specialty care. Our veterinarians are supported by an equally experienced team of technicians and assistants, the majority also coming from ER/Specialty care. Our incredibly experienced team is part of what allows us to be such an outstanding urgent care clinic; we know what is appropriate for our scope of care and more importantly we are able to stabilize and transfer the cases that need more aggressive care. It really is the best of Emergency Medicine, with better hours.

We are currently seeking one passionate associate veterinarian to add to our team. We are also welcoming 1st-4th year externs.

To learn more about AcuteVet, our team, or the positions we have available, please contact

Build Your Veterinary Career with MedVet

Emergency • Specialty • Mentorship

MedVet is the nation's largest veterinarian-founded, veterinarian-owned, and veterinarian-led network of emergency and specialty hospitals. We invest in people, mentorship, and medicine at every stage of your journey.

Opportunities for Every Stage

- Externships: Hands-on experience in emergency & specialty medicine.
- Small Animal Rotating Internships: Broad clinical training with specialist support.
- Emergency Clinician Mentorship Program (ECMP): Paid, structured 1:1 ER training for new grads with a direct path to an Emergency Clinician role.

Why MedVet?

- Dedicated mentorship & progressive clinical independence
- Medicine-first culture in a collaborative, multi-specialty environment
- Student debt assistance, paid parental leave & long-term career growth
- Shareholder opportunities for doctors

If you're curious, motivated, and ready to grow, we want to meet you!
