

KANSAS STATE UNIVERSITY

College of Agriculture and College of Veterinary Medicine

SUSTAINABLE CROP-LIVESTOCK SYSTEMS SUMMIT

Monday, January 9, 2017

11:30 am-5:00 pm

Registration at 11:00 am

K-State Alumni Center, Banquet Room

Speakers

Pierre Gerber, Senior Livestock Specialist, The World Bank Group

Adegbola T. Adesogan, Director, USAID Feed the Future Innovation Lab for Livestock Systems

“Working together to address global research needs and seek funding opportunities.”

Objectives

- Develop a shared understanding of the global needs for our collective expertise.
- Identify specific opportunities where the colleges of agriculture and veterinary medicine can work together to address issues requiring joint action.
- Help position K-State to proactively respond to funding opportunities.

***Please register to allow for accurate
lunch counts.***
