

CVM Attendance Policy

The College of Veterinary Medicine Administration and Faculty views in-person attendance to all lecture, laboratory, and other DVM curriculum activities as an important factor for optimal student learning and professional identity development. The College encourages and expects student attendance at all course events. Makeup or remediation of graded assignments or mandated attendance classes will only be offered for excused absences approved under the CVM Absence Policy by the Associate Dean of Academic Programs and Student Success.

Approved, College Faculty, 9/26/24
