

CVM policy on use of lecture materials

The CVM restricts access and use of lecture materials, including recordings, notes, syllabi, and other materials developed by a CVM faculty/staff member. Access to these materials is limited to 1) Students enrolled in the course, during the concurrent academic term of enrollment; 2) Faculty and administrators engaged to conduct peer and course evaluations. Any exceptions to this policy are subject to prior review and a written mutual agreement by the instructor (or legal proxy) and the CVM.
