Professional Memberships:

IAVMA, AVMA, AABP

Family News:

We've enjoyed living on a few acres in a rural setting where we've had opportunity to share watching ducklings and newborn piglets with the children. There are also been a few lessons about death whether it was kittens not surviving encounters with vehicles or the difficulty of thinking about killing something you've raised for food when attempting home butchering. My wife has taken up juggling--juggling housework, entertaining toddlers, teacher our school age children, etc, that is.

Advice to Students:

Enjoy learning about God's creation, but take a little time to relax too.

Class Comments:

We'd love to have any of you stop by for a visit or have you stay overnight if you need accomadations in the area.

Andrea Marie Hemmen

Career News:

Currently working as a small animal veterinarian and practice manager at Oakcrest Pet Hospital.

Education:

DVM, Kansas State University, Manhattan, Kansas, 2009

Advice to Students:

Hug as many as your patients as you can. Otherwise, you will forget why you entered veterinary medicine and what your purpose is!

Megan Colleen Hillyard

Company: Country Roads Mobile Veterinary Service

Spouse: Stephen Luke Hillyard

Children: Honora 6/1/11

Career News: Declan 3/15/14

Nicolette Dudley Jackson

Company: Vet Path Services, Inc.

Spouse: Joshua Phillip Jackson

Children: Elliot Parker Jackson - 06/12/12
Emerson Graham Jackson - 04/10/15
Tenley Harper Jackson - 04/24/17

Career History, Community Service, Etc.:

After graduation from veterinary school, I worked in small animal practice for 1 year in Phoenix, AZ and then moved to College Station, TX for an anatomic pathology residency through the Texas A&M Cardiovascular Pathology Laboratory. I completed the ACVP boards in 2013 and moved to Frederick, Maryland, where I worked at Alizee Pathology for 4 years. In late 2017, we moved to Montreal, Quebec, Canada for my job at AccellAB (a medical device CRO), and now we are moving to Cincinnati, Ohio for my new job at Vet Path Services, Inc. I work as a medical device pathologist, which means that I evaluate medical device preclinical studies and submit reports to regulatory agencies as part of the medical device approval process.

Career News:

I spent 4 years at Alizee Pathology, where I gained extensive experience in medical device pathology from evaluating numerous preclinical studies for orthopedic, cardiovascular, and other types of medical device studies. In late 2017, we moved to Montreal, Canada for a job at AccellAB, which is a large CRO specializing in the preclinical testing of medical device studies. We are now relocating to Cincinnati, Ohio in hopes of a productive career with Vet Path Services, a contract histopathology laboratory where I will be serving as the director of medical device services and senior pathologist.

Family News:

I met my wonderful wife, Sonya, and her two sons, Will and Noah, in 2016. We were married in 2017 and moved to a small acreage north of Wamego. In early 2018, I adopted Will and Noah and in summer of 2018 we added a baby sister, Madylan, to our little circus.

Advice to Students:

Be happy. The only thing you can control in this life is your attitude. If you stay positive, only worry about the things you can control, and don't sweat the small stuff the rest of life suddenly becomes much easier.

Class Comments:

I wish you all the best and look forward to reconnecting with any or all of you!

Laura Jan Lytle

Company: Double L Veterinary Service, P.A.

Spouse: Jordan Lytle

Children: Leroy Lawrenz Lytle (1-10-17)

Career News: Baby #2 due February 2019

After living at the clinic for almost 4 years, we moved to the farm and have welcomed that change. I continue to operate the clinic on my own but have the added "help" of a toddler while I am there. Some days are a little crazy. It will get more exciting with baby #2 on the way. I also have some hopes and plans for doing things a little different in the future, but we shall see.

Education:

DVM, Kansas State University, Manhattan, Kansas, 2009

Professional Memberships:

AVMA

Family News:

We purchased my grandparent's home place on the family farm near Sawyer and have truly enjoyed living there. Our son Leroy is a wonderful blessing and we're excited for baby #2 in February 2019.

Advice to Students:

Gain experience from as many places as you can. You will probably head down a road different than what you originally thought when you started vet school. When you get to where you think you want to be you likely aren't really there yet so be ready for what's coming next. Don't be afraid to change things -- your schedule, your days off, your location, or even your profession. Don't be afraid to do things differently. Just do it your way and do what's best for you and your family. You'll be happier and so will your clients.

Class Comments:

You all are part of some of my fondest memories with my closest friends. We might be spread across the country but I can always pick up right where we left off. Whether it's the latest case, or more importantly just the latest life has in store for us, it's great to always have that understanding vet school friend! It's fun sharing life with you!

International Veterinary Acupuncture Society - Certified Veterinary Acupuncturists (2017-2018).

Career News:

I have worked in general practice, emergency medicine and a mobile hospice and palliative care practice. I feel very passionate about veterinary hospice care and I am continuing to pursue certifications that allow me to make a pet's "golden years" as happy and comforting as possible.

Education:

DVM, Kansas State University, Manhattan, Kansas, 2009

Professional Memberships:

AVMA, Fear Free Certified - 2018 & 2019; CHI Institute Herbal Course - current to June 2021

Family News:

I brought a beautiful little girl into the world in 2017, Amelia Leigh Wilson. It is very clear that she was born with the same passion for animals that her mom has.

Advice to Students:

Be willing to adapt, but always keep your core values at the forefront throughout your transformation as a veterinarian.

Class Comments:

I am an observer. I learn a lot from watching people and their behavior. The 4 years at K-State helped me grow as a person and veterinarian. Thank you for helping me become the person that I am now. Go K-State!!
