

OFFICIAL PROTOCOL

REQUIREMENTS FOR PROGRESSION TO EACH SUCCEEDING SEMESTER

To be eligible for progression to each succeeding semester of the first three years and to begin the fourth year of the professional veterinary curriculum, each student must have earned no grade below a "C" during the past semester.

A student not meeting the requirement for progression must retake all professional courses in which a grade of "D" was earned and any other recommendations made by the Academic Standards Committee and approved by the Dean. Faculty members may request variances from this policy by petitioning the Academic Standards Committee. The Academic Standards Committee may recommend to the Dean that a variance be granted. The Dean will decide whether a variance will be allowed.
