

**VETERINARY HEALTH CENTER at KANSAS STATE UNIVERSITY  
OFFICIAL PROTOCOL**

**TREATMENT SCHEDULE**

As a matter of proper medical care, all patients in the VHC will be treated according to an established treatment schedule. The specific details of assigning student responsibility for the administration of treatments in accordance with this schedule will be handled by each section.

s.i.d. Treatments 7:00am

b.i.d. Treatments 7:00am, 7:00pm

t.i.d. Treatments 7:00am, 3:00pm, 11:00pm

q.i.d. Treatments 7:00am, 1:00pm, 7:00pm, 1:00am

It is also appropriate to collect samples for the clinical pathology laboratory at the 7:00 A.M. treatment time. Although samples are routinely accepted for "same day service" until 3:00 P.M. each weekday, it is more efficient for the laboratory staff and therefore most appropriate that we submit those samples collected from hospitalized patients at 7:00 A.M. All samples submitted to the clinical pathology laboratory must be correctly labeled and accompanied by a completed All Purpose Request Form.

**APPROVED**     5/8/18, VHC Director
