

# OPHTHALMOLOGY *WishList*

The Ophthalmology Service at the Veterinary Health Center treats patients of all species. Sometimes we can provide a cure. Other times, we can improve vision. Rarely, we can provide only pain relief. No matter the reason for your appointment, we are glad you are here because we can help!

WishList items have been carefully considered to enhance the quality of patient care and education of future veterinarians. For more information, please contact the Development Office at 785.532.4378.

Meet the

## OPHTHALMOLOGIST

Amy Rankin, DVM, MS, DACVO  
Assistant Professor

## *WishList*

### Iridex Diode Laser Operating Microscope Adaptor, \$8,000

This surgical attachment will provide optimal diode laser treatment of limbal and uveal melanomas – the ideal treatment for tumors in these locations. It would also increase the functionality of our current diode laser.

### Graduate Training for Residents, \$6,000 each

Ophthalmology residents pursue a master's degree as part of their three year program. This requires an additional 18 hours of course work and research for each of the three residents in the Ophthalmology Service.

### Tono-Pen, \$3,675

A lightweight, rapid, accurate tonometer for measuring intraocular pressure. This instrument will measure eye pressure and expose students to a new, easy-to-use ophthalmic instrument.

### Compassionate Care Fund, Any amount

The Compassionate Care Fund would allow us to provide treatment or perform needed surgeries on pets when an owner cannot afford the entire cost.

*"THE ABILITY TO GET AN APPOINTMENT, THE SPEED AND THE WAY THAT IT ALL HAPPENED, I WAS VERY, VERY HAPPY WITH HOW IT ALL TURNED OUT. WE ARE BLESSED, VERY BLESSED, TO HAVE YOU (HOSPITAL FACULTY) IN MANHATTAN. IT'S THE MOST POSITIVE PLACE."*

- TIM LIVSEY, CLIENT
