

Agricultural Economics

USDA National Needs Fellowship Opportunities

Kansas State University Department of Agricultural Economics has fellowship opportunities for three Ph.D. students and two Masters students. Topic areas may include...

Animal Health Economics

Biosecurity Economics

Fellows studying in these areas have opportunities to engage in cross-disciplinary work with researchers from centers and organizations located on and nearby campus.

Those centers include:

The National Agricultural Biosecurity Center,
The Center for Risk Management and Education,
The Center for Outcomes Research and Education,
The Kansas Department of Agriculture and
The College of Veterinary Medicine

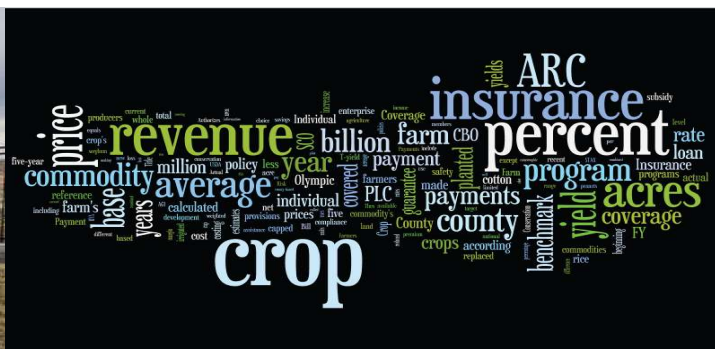

Livestock & Grain Marketing

Risk Management

Production & Policy Analysis

Farm & Ranch Management

Fellows studying in these areas will gain experience translating their research to extension audiences through online and in-person outlets.

K-State has nationally recognized, award winning faculty working in these topic areas. Our programs integrate applied research, on-campus teaching and producer outreach.

K-State has received 21 NNF grants since 1990.
